---

## Qualifications Profile

- **Motivation:** A highly experienced scholar interested in a broader experience as part of his scholar research agenda, which includes the approach to the religious phenomena from a multi-dimensional and trans-disciplinary perspective.
- **Experience:** Eighteen years of research experience on different aspects of the religious dimension among Latin American and global population, including the participation in research teams in Mexico and the U.S.
- **Strengths:** Strong theoretical, statistical and technical qualifications. Proven ability to successfully design research strategies, gather and organize info, design database systems, analyze data through multivariate and hierarchical models including temporal and spatial dimensions, and prepare results for general and scholar audiences.

---

## Skills Summary

- ◆ Committed passion for the honest understanding of religious phenomena
- ◆ Broad understanding of Latino and Latin American backgrounds
- ◆ Preference and easygoingness for group work
- ◆ Experience in gathering, organizing, and analyzing large datasets and relational databases
- ◆ Ability to interact in English/Spanish/Bilingual environments
- ◆ Advanced knowledge of statistical and database software

---
